

# AMWT-50

## DECIMETER WAVE THERAPY (DMW-THERAPY) MEANS:

- Ⓜ Tissue warming up to depth of 9 cm, i.e. twice as deep as compared to CMW-therapy;
- Ⓜ More uniform tissue warmup as compared to CMW-therapy;
- Ⓜ Possibility of treatment session irrespective of thickness of subcutaneous fat layer.

## AMWT-50 FEATURES:

- Ⓜ Continuous and pulse modes for UHF power radiation;
- Ⓜ Contact treatment methods;
- Ⓜ Possibility to use the device in any room without radiation shield;
- Ⓜ Possibility to move the unit into different wards;
- Ⓜ Both external and intracavitary applicators are available;
- Ⓜ Possibility of treatment of different areas with various shapes and sizes;
- Ⓜ Soft physiologic effect, comfortable feeling and deep uniform warmup in pulse mode;
- Ⓜ Wide control range of output power control;
- Ⓜ Small control steps of output power control;
- Ⓜ Possibility of use in pediatrics.
